LIST OF ACRONYMS

MoE	- Ministry of Education
MoRA	- Ministry of Religious Affairs
MoCYS	- Ministry of Culture, Youth and Sports
PMO	- Prime Minister's Office
Private	- Schools/Institutions under private sector
DPDR	- Department of Planning, Development and Research
DEPD	- Department of Economic Planning and Development
PB	- Politeknik Brunei
ITB	- Institut Teknologi Brunei
UBD	- Universiti Brunei Darussalam
UNISSA	- Universiti Sultan Sharif Ali
KUPUSB	- Kolej Universiti Perguruan Ugama Seri Begawan
KIGS	- Kolej International Graduate Studies
LCB	- Laksamana College of Business
HND	- Higher National Diploma
GER	- Gross Enrolment Rate
NER	- Net Enrolment Rate
GPI	- Gender Parity Index
NIR	- Net Intake Rate
GIR	- Gross Intake Rate
PTR	- Pupil-Teacher Ratio
MF	- Male and Female
F	- Female
M	- Male

I Overview

General Information

Total Population	417,200
Annual Rate of Increase	1.3
Life Expectancy at Birth	77.4
Infant Mortality Rate per 1000 live births	8.8
Literacy Rate (Total)	98
Literacy Rate (Male)	98.6
Literacy Rate (Female)	97.4
GDP per Capita at current prices	42,610*
Number of Schools	254
Number of Teachers	10979
Number of Students	113987
Teacher to Student Ratio	1:10
School to Student Ratio	1:452
School to Teacher Ratio	1:42
Number of Graduates at Higher Education (local institutions)	3535

IV Glossary

GROSS ENROLMENT RATE (GER)

Total enrolment in a specific level of education, regardless of age, expressed as a percentage of the eligible official school-age population corresponding to the same level of education in a given school year. Divide the number of pupils enrolled in a given level of education regardless of age by the population of the age group which officially corresponds to the given level of education, and multiply the result by 100. A high GER generally indicates a high degree of participation, whether the pupils belong to the official age group or not. A GER value approaching or exceeding 100% indicates that a country is, in principle, able to accommodate all of its school-age population, but it does not indicate the proportion already enrolled. The achievement of a GER of 100% is therefore a necessary but not sufficient condition for enrolling all eligible children in school. (Education Indicators 2009, UNESCO)

NET ENROLMENT RATE (NER)

Enrolment of the official age group for a given level of education expressed as a percentage of the corresponding population. Divide the number of pupils enrolled who are of the official age group for a given level of education by the population for the same age group and multiply the result by 100. A high NER denotes a high degree of coverage for the official school-age population. If the NER is below 100%, it shows the proportion of children not enrolled at the specified level of education. (Education Indicators 2009, UNESCO)

GROSS INTAKE RATE (GIR)

Total number of new entrants in the first grade of primary education, regardless of age, expressed as a percentage of the population at the official primary school-entrance age. Divide the number of new entrants in grade 1, irrespective of age, by the population of official school-entrance age, and multiply the result by 100. A high GIR indicates a high degree of access to primary education. As this calculation includes all new entrants to first grade (regardless of age), the ratio can exceed 100%, due to over-aged and under-aged children entering primary school for the first time. (Education Indicators 2009, UNESCO)

NET INTAKE RATE (NIR)

New entrants in the first grade of primary education who are of the official primary school-entrance age, expressed as a percentage of the population of the same age. Divide the number of children of official primary school-entrance age who enter the first grade of primary education for the first time by the population of the same age, and multiply the result by 100. A high NIR indicates a high degree of access to primary education for the official primary school entrance age children. NIR of 100% is a necessary condition for the policy goal of universal primary education. (Education Indicators 2009, UNESCO)

REPETITION RATE (RR)

Proportion of pupils enrolled in a given grade at a given school year who study in the same grade in the following school year. Divide the number of repeaters in a given grade in school year $t+1$ by the number of pupils from the same cohort enrolled in the same grade in the previous school year t . Repetition Rate ideally should approach zero percent. High repetition rate reveals problems in the internal efficiency of the educational system. When compared across grades, the patterns can indicate specific grades for which there is higher repetition, hence requiring more in depth study of causes and possible remedies. (Education Indicators 2009, UNESCO)

PUPIL-TEACHER RATIO (PTR)

Average number of pupils (students) per teacher at a specific level of education in a given school year. Divide the total number of pupils enrolled at the specified level of education by the number of teachers at the same level. A high teacher pupil-ratio suggests that each teacher has to be responsible for a large number of pupils. In other words, the higher the pupil/teacher ratio, the lower the relative access of pupils to teachers. It is generally assumed that a low pupil-teacher ratio signifies smaller classes, which enables the teacher to pay more attention to individual students, which may in the long run result in a better performance of the pupils. (Education Indicators 2009, UNESCO)
