

## WHAT IS PISA?

PISA stands for Programme for International Student Assessment

It is organized by OECD

It is an assessment developed for 15-year-old students

The assessment would take around 3 ½ hours

PISA is used only as a measure of national performance and results are given to the country as a whole, not to students individually

## WHY IS PISA IMPORTANT?

PISA will assist in the development of appropriate education policy to create better learning environments and helps to provide a more successful education system

PISA measures how much factors outside of school affect student performance through a background questionnaire. This helps identify any socioeconomic gaps and suggests policy solutions for them

PISA also provides an opportunity to monitor how Brunei Darussalam compares to other countries. This is an opportunity where we can learn from our peers and share practices that improve learning over time
