

## SECTION : FEATURES

**May 04 [Inside Higher Ed] A PERSONAL SALUTE TO GENERAL EDUCATION.** Terry O'Banion describes how his career and life have benefited from a strong emphasis on general education. [LINK](#)

**May 05 [The New York Times] THE MIND EXPANDING VALUE OF ARTS EDUCATION.** As funding for arts education declines worldwide, experts ponder what students — and the world at large — are losing in the process. Awuor On-guru says that if it were not for her continued exposure to arts education as a child, she never would have gotten into Yale University. [LINK](#)

**April 30 [Forbes] HOW ARE EDUCATORS REACTING TO CHAT GPT?** ChatGPT, developed by OpenAI, a USA company has the opportunity to innovate how education is accessed, as well as could have severe consequences on student's critical thinking skill development. [LINK](#)

## SECTION : HIGHER EDUCATION

**May 03 [Higher Ed Drive] COLLEGE STUDENTS STILL STRUGGLING TO STAY ENROLLED, GALLUP RESEARCH FINDS.** More than 2 in 5 college students said they considered stopping out of their academic programs within a six-month period, according to a survey released Wednesday from the Lumina Foundation and Gallup. [LINK](#)

**May 04 [EdTech] HOW INSTRUCTIONAL TECHNOLOGY IS IMPACTING HIGHER EDUCATION.** Universities are training instructional technologists to work in an evolving field — and using these lessons to improve teaching and learning. The way we teach has undergone a massive shift in the past three years. When the COVID-19 pandemic accelerated trends toward remote instruction, asynchronous learning and more, classrooms were inundated with new technologies that were intended to help. [LINK](#)

**May 05 [Times Higher Education] HOW THE IDEA OF 'EXCELLENCE' CAN BE MISLEADING IN HIGHER EDUCATION.** A new approach to achievement could see a focus on As give way to a suite of mastery that meets students' needs — and helps faculty balance expectations, writes Michael Dennin. [LINK](#)

## SECTION : CURRICULUM

**May 04 [NBC] SEX TRAFFICKING EDUCATION TO BE MANDATED IN WASHINGTON SCHOOLS.** Governor Jay Inslee has signed a bill that will require sex trafficking prevention education to be taught in schools in the state. Senate Bill 5355 was sponsored by Senator Claire Wilson (D-Auburn) but was written and discussed by a senior from Eastside Preparatory School, Ria Bahadur. The senior in Kirkland was inspired after learning alarming statistics in the state, including ranking as the sixth largest center of sex trafficking with over 45% of victims being minors in school. [LINK](#)

## SECTION : ARTIFICIAL INTELLIGENCE

**May 05 [CBS News] ACADEMIC INTEGRITY IN THE AGE OF A.I. EDUCATION.** Use of artificial intelligence continues to expand rapidly. Now many people are wondering how it's being used in education and its effect on academic integrity. Whether it's Amazon's Alexa or Siri on an iPhone, people are using artificial intelligence nearly every day. But with new generative A.I. like ChatGPT, many are concerned with how students might use a system like that to cut corners. [LINK](#)

**May 02 [World Economic Forum] HERE ARE 3 WAYS HIGHER EDUCATION CAN PREPARE FOR THE GENERATIVE AI REVOLUTION.** Every major technological revolution sets in motion a concurrent revolution in work. With the development of organized agriculture thousands of years ago, foragers settled on farms. During the Industrial Revolution, steam engines drove those farmers into factories. [LINK](#)

## SECTION : SCHOOL

**May 05 [Malay Mail] EDUCATION MINISTRY PAUSES ALL OUTDOOR ACTIVITIES FOR SCHOOLS NATIONWIDE TILL HEATWAVE SUBSIDES.** Schools nationwide have been told to stop all outdoor activities, including cross country running, amid a heatwave. Education Minister Fadhlina Sidek said the ministry sent out a circular two days ago informing all principals and school administrations of this decision, Utusan Malaysia reported today. [LINK](#)

**May 05 [The Hill] WHAT FALLING TEST SCORES MEAN FOR US STUDENTS.** U.S. children's test scores in social studies, math and reading have all plummeted since the beginning of the pandemic, raising grave concerns about students' future. [LINK](#)

**May 05 [BBC] EDUCATION: PARENTS FACE FIGHT OVER SUPPORT FOR CHILDREN.** A fight or battle, that is how some parents describe getting extra support for their children in school, despite reforms meant to make it easier. One mother, Ros, said she was "flabbergasted" when she was told her profoundly deaf four-year-old would not get an Individual Development Plan. [LINK](#)

## SECTION : SKILLS LEARNING

**April 28 [Ed Surge] WHAT IF WE MEASURED LEARNING THROUGH SKILLS GAINED, NOT TIME SPENT IN THE CLASSROOM?** For more than 100 years, high schools and colleges have relied on the same stalwart tool to measure teaching and learning: the clock. That's because earning credit toward a diploma or degree typically requires students to spend a minimum number of hours receiving instruction in the classroom. [LINK](#)

**May 02 [Economic Times] WHY UPSKILLING IS IMPORTANT IN YOUR STUDY ABROAD JOURNEY.** Higher education institutions look towards equipping their students with skills for their professional development and career advancement. They also expose them to post-study career opportunities at the completion of their degree. With the ultimate vision of making students future-ready, educational institutes encourage and support upskilling initiatives. [LINK](#)

**May 03 [Times Higher Education] ENHANCING GRADUATE EMPLOYABILITY IN INDIA THROUGH COLLABORATION AND SOFT SKILLS INTEGRATION.** To maximise and optimise graduate employability, Indian universities are beginning to integrate soft skills into their curricula. The aim is to create graduates who have a broader and more adaptable skillset, something that is essential for the fast-changing world of work. [LINK](#)

## SECTION : DIGITAL LEARNING

**May 01 [Khmer Times] UNLOCKING THE POTENTIAL OF A DIGITAL EDUCATION AT MLE SCHOOLS.** When Anlong Kes Primary School received a smart TV last year to help teachers support digital learning in schools with ethnic minority students, the staff weren't short on ideas on how to use it. Grade 1 teacher Antoe Vibot said she knew her students would love it. [LINK](#)

**May 04 [UNESCO] NEW INITIATIVE BY UNESCO AND THE CHILEAN MINISTRY OF EDUCATION WILL STRENGTHEN TEACHERS' DIGITAL SKILLS.** This effort aims to strengthen Chilean teachers to face the challenges of digital transformation in education and society. The pilot project in Chile is part of a regional initiative that will be replicated in other countries in Latin America and the Caribbean, with the collaboration of the technology company Huawei. [LINK](#)
