July 31 [The Indian Express] A lesson from John McEnroe: Coming first is not the only way to achieve success.

"Pressure to win makes the best of us cramp up...It is important to reconsider the idea of success that the rankings game has boxed us into," writes Nuggehalli. John McEnroe says that Björn Borg, his greatest rival in tennis, once told him, 'If you're not #1, it doesn't matter if you're #2 or #100.' McEnroe says Borg got it wrong. [LINK](#)

August 01 [The Guardian] Pandemic set back social and emotional growth of children in England, study finds. Half of

all children suffered a setback to their emotional and social development during the first year of the pandemic, with younger children more likely to have been negatively affected than their older brothers and sisters. Children from all economic backgrounds, the research found, though those aged four to seven were significantly more likely to have suffered a deterioration in their skills than 12- to 15-year-olds. August 03 [Education Week] The Steps Some States Are Taking to Redefine Student Success. Since her appointment as

Indiana's first secretary of education in 2020, Katie Jenner has had to contend with a number of troubling statistics. "We have to do everything we can to urgently shift that paradigm so that we're ready as a state and as a country and that our kids are using their years in the K-12 system in a way that's as valuable as possible," Jenner said. August 03 [Education Week] Kids' Mental Health Can Decline in the Summer. What Schools Can Do to Help. Students'

mental health issues don't disappear during the summer. Sometimes they get worse. "Sometimes, issues that are more problematic during the school year can go under the radar during the summer," said Clark Goldstein, a clinical psychologist based in Garden City, N.Y., who focuses on anxiety disorders in children. Without the structure and routine of a school day or access to counselors, some students may be at risk of regression. [LINK](#)

August 03 [UNESCO] Paving the way for the ERCE 2025 study: Regional workshop develops capacities for data collection and capture in educational assessments. The workshop provided a comprehensive understanding of large-scale

data collection methodologies, and the use of specialized software for data processing and recording. Beyond offering a broad perspective of these tasks, the workshop placed particular emphasis on coordinating the various stages of the pilot project, the effective implementation of activities, and planning of essential resources to carry out the different

actions. [LINK](#)

August 04 [UNESCO] Key findings from the Global Education Monitoring Report 2023 on Technology in Education now available in Hindi. This comprehensive report addresses the use of technology in education around the world through the lenses of relevance, equity, scalability and sustainability. It serves as a crucial mechanism for monitoring and reporting on Sustainable Development Goal 4 (Quality Education) and on educational parameters in the other SDGs.. [LINK](#)

SECTION : **EARLY CHILDHOOD EDUCATION**

August 02 [BBC] First phase of childcare review completed in Jersey. It focuses on messages for Jersey on improving early childhood education and childcare. Relatively low use of formal childhood education and childcare reported amongst economically disadvantaged families follows similar trends in other countries. Care from friends or relatives is commonly relied upon by working families - a strong feature in Jersey. [LINK](#)

August 03 [Antara News] Seeking a bright future through early childhood education. The concern over early childhood education has been considered appropriate, especially among policy makers, as the younger generation is the one that is expected to take the lead in achieving a bright future for the world. The urgency of early childhood education was one of the topics of discussion brought up by the 2023 ASEAN chair Indonesia during the SEA PD on ECCE, which was held in Jakarta on July 25 and 26, 2023. [LINK](#)

August 04 [News 10] Tonko announces federal aid for early childhood education. "Early childhood education is an essential element of every child's foundation for lifelong learning," Congressman Tonko said. "SCAP recognizes the potential of early learning programs to cultivate a strong, positive environment for the youngest members of our communities. This timely investment will ensure that every child and every family supported by SCAP will receive the resources and assistance they need to thrive." [LINK](#)
