**August 11 [Eagle Country] Indiana Department of Education Announces Expansion of Statewide Tutoring Grant Program.** The Indiana Department of Education (IDOE) today announced the expansion of Indiana Learns, a statewide grant program providing qualifying parents and families with \$1,000 to spend on math and English/language arts high-dosage tutoring and approved out-of-school academic programs for their students. To date, more than 10,000 students are enrolled in Indiana Learns. [LINK](#)

## SECTION : CORE EDUCATION

**August 10 [Free Malaysia Today] Govt finalising compulsory secondary education policy, says Fadhlina.** The education ministry is in the midst of finalising the compulsory secondary education policy in an effort to curb the issue of students dropping out of school. Education minister Fadhlina Sidek said the issue of dropouts would not occur if children were required to study up to the Sijil Pelajaran Malaysia (SPM) level under the new policy. She also said that the country was facing enrollment problems for preschool and secondary school levels but not for primary schools. [LINK](#)

## SECTION : DIGITAL EDUCATION

**August 09 [IISD] UNESCO Calls for Appropriate Use of Technology in Education.** "Some education technology can improve some types of learning in some contexts," the report suggests. However, it warns, learning benefits disappear if technology is used in excess or if it replaces a qualified teacher. "The Global Education Monitoring Report relies on the SDG 4 (quality education) monitoring framework to track the implementation of national and international strategies "to help hold all relevant partners to account for their commitments."

**August 10 [The Hechinger Report] Infants and toddlers in high quality child care seem to reap the benefits longer,**

research says. researchers have debated the long-term impact of early childhood education, sharing evidence that while some children experience positive long-term outcomes, others see initial benefits fade out — or even experience detrimental outcomes. Now, a new study is adding to a growing body of research indicating that high-quality early care and learning programs can positively impact children for years into the future. [LINK](#)

**August 11 [Ed Surge] We Need Better Pathways for Becoming an Early Childhood Teacher.**

I became an early childhood teacher because, like so many others, I dream of making abundant, equitable access to high-quality early childhood education a reality. But a major barrier persists: We don't have nearly enough teachers, and more and more are leaving the classroom every day. Despite this challenge, the process of becoming a certified early childhood teacher is not nearly as accessible or inclusive as it can be. This needs to change. [LINK](#)

## SECTION : **HIGHER EDUCATION**

**August 09 [Fagen Wasanni Technologies] Revolutionizing Higher Education: The Role of Cloud Computing in Today's Universities.**
