

Students in STEAM Monthly Challenge:

Importance of Hygiene to combat COVID-19

Students may chose to enter more than one category but limited to one product entry per category.

august

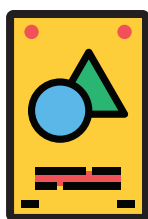

(i) Poster challenge

Deadline:
30.08.2020

Begin your journey to produce an infographic A3 sized poster that demonstrates the importance of hygiene to combat COVID-19.

The poster can be a do-it-yourself (DIY), printed, or a hybrid of both.

Send your creative message across via your poster.

2020

september

(ii) Video challenge

Deadline:
30.09.2020

Students are expected to produce 3-5 minutes video unfolding the importance of hygiene to prevent the spread of COVID-19.

Send your creative messages and make your video a winning product.

november

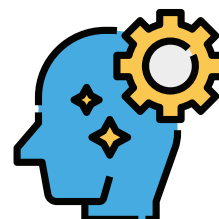

(iii) Invention & Innovation challenge

Deadline:
30.11.2020

Students are required to build a prototype (preferably a working prototype) that could work in the prevention of the spreading of COVID-19.

The use of innovative technology will be an advantage.

Show your innovative creation and make it into a winning product.

2020

Best of 3 entries for primary and secondary students in each category will be recognized and certificates of achievement will be given. Selected entries will be featured as exhibits as necessary.

Google drive file for registration forms: <https://tinyurl.com/yxrwlf7>

Submit your work together with registration form.

Submission can be done via online (email) or to

Pusat STEP, Blok A, Tingkat 2
Bangunan Sekolah PAP Besar Sungai Kebun,
Jalan Lumapas, Kampong Lupak Luas,
Negara Brunei Darussalam
